To the PSC-

As a resident of South Carolina, and a concerned citizen, I am writing to request that you do not limit operations of Uber in South Carolina. You are interfering with free market and competition. Uber is a superior business model and a wonderful option when rides are needed. Your interference strikes me as unfair to both the consumer, customer, and to business in general.

Innovation and creativity and a better option for customers is what we should be encouraging and supporting, not limiting. Leave Uber alone and allow it to operate.

Patti Sachs

Subject: Uber

To whom it may concern,

Uber has had an immediate and hugely positive impact on the ability of Greenville citizens to get a timely, fare, and safe ride. Anyone that opposes this type of improvement in quality of life for the citizens of this state deserves to be removed from office immediately. Based on this ruling you are forcing me to place my financial and political interests in direct opposition to any and all sitting members of the PSC. Please re-think this decision immediately.

Sincerely,

Whitney Spinks

Subject: Keep Uber in SC! We need them!

As a young female I am always scared of riding a cab due to many unpleasant experiences, both in SC and in other states. Uber is a breath of fresh air. I feel safe for the first time. I have used them for years. And I when I moved to SC, I was pleased to know they were in town. Every Uber ride I have ever taken is clean, no nasty smoke odor, which triggers my allergies, pleasant and kind drivers who don't stare at my cleavage, no dog hair, no hassle, no feeling unsafe. As a woman, feeling safe is number one priority. I have had a lot of female drivers riding uber, and I have had gentlemen drive whenever I get a male. I feel safe knowing who is picking me up ahead of time, their full name along with their picture. Plus, I know GPS technology let's uber know where I am and whom I'm with. After years of being spoiled with uber rides, I was forced to call a cab out of Folly Beach to go to Charleston. All the previous bad memories of riding a cab came up. I basically stepped into an ashtray, the car reaked of smoke, the driver refused to turn on any kind of ventilation so my allergies got out of control. The cab driver was angry, intimidating, mouthing off and actually cussing off uber saying how bad they were. I literally held my breath as I prayed for the ride to be over. I don't understand how in America, land of the free, land of entrepreneurship, land of technology, of greatness, uber could be shut down in SC. It's perplexing to me. It makes me want to cry. I should have the freedom to get a cheaper, safer, more comfortable ride in this great nation. Why are you trying to take that away from us, hard working Americans? Why can't you just let it be a free market? This country was founded on freedom. I should be free to get a ride from whomever I chose, and the uber drivers should be able to make a living without your interference. Bring uber back! Shame on you for depriving us from the freedom we deserve as Americans, shame on you for infringing upon our right to choose, shame on you for restricting free enterprise, and shame on you for making vulnerable females like me risk our lives and our chastity every time we risk getting a ride from a random, stinky cab driven by an intimidating and disrespectful man. I hope you all pray about this and do the right thing. Let Uber stay in SC.
